

Package ‘BiocHubsShiny’

October 1, 2025

Type Package

Title View AnnotationHub and ExperimentHub Resources Interactively

Version 1.9.2

Description A package that allows interactive exploration of AnnotationHub and ExperimentHub resources. It uses DT / DataTable to display resources for multiple organisms. It provides template code for reproducibility and for downloading resources via the indicated Hub package.

License Artistic-2.0

Encoding UTF-8

Depends R (>= 4.3.0), shiny

Imports AnnotationHub, ExperimentHub, DT, htmlwidgets, rclipboard,
S4Vectors, shinyAce, shinybiocloader, shinyjs, shinythemes,
utils

Suggests BiocManager, BiocStyle, curl, glue, knitr, rmarkdown,
sessioninfo, shinytest2

Contents

BiocHubsShiny	2
Index	3

BiocHubsShiny	<i>Initialize the shiny application for Bioconductor Hub resources</i>
---------------	--

Description

The shiny app will allow the user to view a table of either [AnnotationHub](#) or [ExperimentHub](#) resources depending on the sidebar selection. It provides example code for downloading the selected resources.

Usage

```
BiocHubsShiny(...)
```

Arguments

... Further arguments to the runApp function

Details

Note. The code here was adapted from interactiveDisplayBase and ?'display,Hub-method' which are now deprecated.

Value

Mainly called for the side effect of displaying the shiny app in a browser

Examples

```
if (interactive()) {  
  BiocHubsShiny()  
}
```
