

# Bioconductor Award 2021

Certificate

**James MacDonald**

For outstanding contributions to the Bioconductor project and community

James is an exemplary member of the Bioconductor community. His continued involvement in community activities has helped countless programmers learn and understand Bioconductor. James is excellent at teaching interactive workshops and is repeatedly asked to give the Introduction to Annotations workshop at the annual Bioconductor conference. James consistently provides thoughtful, kind, and informative support site answers in a fast, detailed, and comprehensive manners. His involvement on the support site is reflected in currently having the highest reputation score among all Bioconductor support site users. His contributions have been fundamental to the growth of the community and for fostering kind and thoughtful interactions on the support site.
